7. The silent ghost

Once upon a time there was little ghost. He wanted to become a great and scary ghost and so he practised screaming a lot, but one day something terrible happened to him: he lost his ghost voice! He was howling his most terrible ghost howl, when suddenly his voice stopped and he could not go on. The little ghost was extremely sad. What should he do now? Sad and confused he went home.

“What is it?”, his grandmother asked him. The little ghost explained his troubles, but she smiled at him. “Don’t worry”, she said and gave him some special ghost medicine. The next night, the little ghost could howl terribly again.
